ARTWIN

Art Welcomes Inclusion through Innovative Technologies

Today advanced technologies offer extraordinary opportunities both in terms of production and distribution of innovative content, in terms of the protection and enhancement of cultural heritage, and in terms of accessibility. We aim to make the technologies more accessible to all.

THIS IS THE LAST OFFICIAL MONTH IN THE PROJECT'S IMPLEMENTATION,
YET THE WORK WILL CONTINUE

We have learned many theoretical insights, experienced practical tools and assignments, prepared materials to be used by others.

Surely we have strengthened the capacity and experience of our institutions.

We strongly believe that the cultural heritage should be accessible to all.
